

Dental Mavericks

Ending Daily Dental Pain

SPONSOR

a nurse

AND HELP

YOUR BUSINESS GROW

The benefits

It's unfortunate that many nurses face financial challenges that limit their ability to take trips or vacations. Nurses play a crucial role in the healthcare system, providing essential care and support to patients, and dentists.

In the meantime, it's essential for clinics to show appreciation for nurses' dedication and hard work, sponsoring them to help such causes as Dental Mavericks is a great way to help a dedicated nurse, help many people in dental pain and help promote your business all in one go.

Sponsoring a nurse can be very beneficial for both the nurse and the sponsor. Here are some key benefits:

Increased Visibility: By sponsoring a nurse, your business will gain exposure to a large, targeted audience of 17,000 followers within the healthcare industry. This exposure can help raise awareness of your brand among potential customers and partners.

Engagement Opportunities: The nurse can collaborate with your business by creating a vlog diary during the trip, documenting their experiences and the valuable work they are doing. This content can be shared on social media platforms, providing engaging and authentic storytelling that connects with your audience.

Brand Recognition: Your company can be featured in the nurse's vlog diary, providing a platform to showcase your brand and its commitment to supporting meaningful initiatives within the healthcare sector.

Website and Newsletter Inclusion: Sponsors will be prominently featured on our website and included in our newsletter, ensuring continued visibility and recognition even after the trip has ended.

These benefits not only provide value to the sponsoring business but also play a vital role in enabling the nurse to contribute their skills where they are needed most.

THIS IS WHAT RONDA SHARED

ABOUT HER EXPERIENCE:

"Good morning I'm Rhonda, one of the Dental Mavericks working over in Asni in Morocco and firstly I'd like to say a big thank you to Cfast as they've sponsored me to come out here on this project and without them I think it would have been impossible.

I'd just like to say to anyone that's been thinking about volunteering for the Dental Mavericks just to do it. It's an amazing project and before I came out, I was a bit worried about who I'd be working with, and what everyone else was like and everyone's just amazing.

There's about 20 of us, including translators, and everyone's just got on so well, like we've worked with each other every day for the last year or so. Yeah a really friendly bunch and I think we'll all continue our little chat group when we get home just to carry on our experiences which has been really nice.

The highlight for me this week so far, was a young teenager in clinic. Cassidy was quite upset after seeing triage because she thought she'd have to have her four front teeth removed they were quite heavily decayed but one of our dentists here Sunny was brilliant and just spent the time with her and actually filled her teeth rather than taking them out and it just cheered the whole clinic up, as soon as she'd finished treatment everyone just wanted to come and sit come and see the end result was for her. So it's like doing a small makeover like back home but we've limited supplies and you're limited to what treatment you can do but yeah that was amazing for me.

So far we're just heading out on our last day today but so far over the last four days we've treated 856 patients and we've done over 400 extractions so it's quite a lot it will make me realise back home what luxuries we do have in our own health care and yeah I think I'll share that with other people at home and make them realise what we have got and what we haven't got.

But yeah once again thank you Cfast for making it possible for me to come out here and yeah get signing up now because they need your help constantly and it's an amazing thing to do, bye."

HERE'S STEPHANIE'S STORY

“Hi, here we are up at the Atlas mountains, at this absolutely beautiful location. I'd just like to say a very special thank you to Jo at DNS, Dental Service Solutions for sponsoring me to do this trip. I'm really really grateful. We've had an amazing week, today is saturday and we have seen over 900 patients, which has been amazing, yeah we've helped lots and lots of people, so I would really really recommend it to everyone, thank you.”

THE NEXT STEP

The cost of sponsoring a nurse is £850.00, all you need to do is contact Samanta at sam@dentalmavericks.org, just head your email Sponsorship. You will receive a request for company information and photos for our social media promotions and an invoice that can be paid online very easily.

The promotion of your business will happen before, during and after the trip, ensuring maximum coverage. We generate a lot of interest in the run up and especially during our trips, of which you will be a part of.

Email us today for a fantastic opportunity to help others and help promote your business!

Thank you:

to Sharon Norman, Company Director of Cavity Dental Staff, for sponsoring 2 nurses for our October trip to Morocco.

When we asked her why she wanted to support us, this is what she said,

“We are just trying to give something back as a business, and have supported Dentaaid for a few years now. However, Jo Davies (DNS), who merged with us earlier this year has supported you for many years and we wanted to carry on her tradition. Looking forward to many more years of supporting you!”
